

National All-star selection update:

In keeping with a decision made by the Region 1 Board of Directors, the following process will be used to select the Level 10B, Level 10A, and Level 9 Teams that will represent us at the National Championships:

After the competition on Thursday and Friday, the top ten all-around finishers for all three groups will be invited to a Saturday morning clinic. At that time, the sizing and ordering of the uniforms will take place. If one or more of the top six is not at the clinic, he/they will be replaced on the team with the next highest-ranking gymnast(s) at the clinic.

If you believe that you have an athlete(s) who have a chance of making the team, they must be there on Saturday morning.

Partial Score Qualifying to Regionals

Region 1 has received several questions about partial score qualifiers to Regional Championships.

"This is the first time it has come up in our Region, so for this year we will use the exact numbers and procedures as is used at our Regional Championships."

In other words, the partial score qualification procedure used to qualify to JO Nationals, will be used at our State Meet to qualify to Regional Championships.

Partial score qualifications apply only to Level 10's.

Karl Abraham

SCMGA Director
